Holiday Party Holiday Party

Central Florida Coin Club had its annual holiday celebration on December 11th at the VFW post in Apopka, FL.

CFCC members Artie Vecchio and Don Mix (both members of the VFW post) graciously allowed the club to use the post's facilities. We had a relatively good turn out for our little party. The club offered double raffle prizes, Lets Make a Deal Drawings, Educational Certificates and of course each member present received a little gift from the club. It was a good time to gather and socialize with friends and enjoy a wonderful buffet of tasty treats.

This year we did things a little differently. CFCC's own resident chef, Mr. Keith Gandy, prepared turkey, ham and pork roasts for all of the members to enjoy. Each member brought a little something to share as well; consisting of desserts or a side dish. We had a varied menu of some pretty tasty dishes! I don't think that we wanted for anything. Everyone there had plenty to choose from and no one went away hungry!

As a club project we collected toys to be donated to "Toys for Tots". Our president Bob Russell took all of our donations to the drop off point on Thursday, December 12th. Hopefully our club helped to make a dent in the huge need for gifts to assist the less fortunate of our community.

CFCC also helped Casselberry Coin Club in their endeavor to collect food for the local food banks. Steve Lauer was in charge of those donations and added what was collected to the food collected at our sister club.

Thank you to all that participated; I believe that we helped to make a bright spot in someone's celebration by helping with both of these very worthy causes.

I hope that each of you had a wonderful holiday season. See you in the New Year!!

What Happened Here?

Each month, we will post photos of a coin that has some type of "problem". The answer will be given in the following months Numis-Notes!

This Months Mystery-

This month's coin spot lights a 1998-D Lincoln cent that has what appears to be a brockage or was double struck. But, was it? The answer will be in next month's Numis-Notes.

Answer for last month-

Last month we looked at a 1941(P) Lincoln cent that seems to be struck with very, very late state dies. The coin has been manipulated outside the mint. The dies that did strike the coin were not very late die state or even late die state, but were more than likely mid die state. Taking that into consideration, the supposed cold metal flow lines seen would not exist in that early of a die state. This coin was subjected to a directional heat source to produce the wavy lines.

Donna, and BJ and I will not be at the next CFCC meeting due to our commitments at the FUN show.

At the FUN show this year (January 9-12) the educational exhibits area will have 185 cases for you to look at, including one case with over a million dollars of Colonial Massachusetts silver on display. Come by and have a look. Also exhibiting are members of CFCC and CCC. See what they have to educate and impress you with.

“Collecting U.S. Type Coins”

This promises to be a great presentation by one of our most avid collectors of type coins!

Make sure you are in attendance to see this presentation!

It is our goal to have one meeting per month, where a guest speaker (read-a member of the club) gives a short 20 minute presentation on a topic of their choosing-Numismatic related, of course.

We are always looking for volunteers to share their knowledge with the members-

The presentation doesn't need to be “show quality”, just get up and tell us what you know!
