Fall Coin Show

The CfCC Annual Fall Coin Show was held at the Central Florida Fair Grounds Friday Sept, 27, Saturday Sept. 28th, and Sunday Sept 30th. This is Central Florida Coin Club's Semi-Annual Coin Show, and as always, a great time to meet new friends, catch up with old friends, and just spend the day (or weekend) talking and doing "all things coins". Thanks to all who volunteered in many different ways to make this show happen-from loading up the truck with cases, lights, etc., set up, manning the registration table, organizing the dealers, packing up and returning the cases and lights back to the storage unit-It all takes time and effort-so "thank you" to all who assisted! We will have more details next month on the attendance, ticket sales, etc. (see page 5 for more photos)

Featured Coin of the Meeting

10/9

1973-D Eisenhower Dollar - MS64

A rather flashy and high-end example of this low-mintage date.

Only a few abrasions seen on Ike's cheek limit the grade of this piece.

PCGS Price Guide: \$35

Minimum Bid: \$15

10/23

1842-O Seated Dime - VG+

A choice example of this underrated semi-key date.

The surfaces are a pleasing original gray and most letters of LIBERTY are still visible.

A seldom-encountered offering.

PCGS Price Guide: \$45

Minimum bid: \$35

What Happened Here?

Each month, we will post photos of a coin that has some type of "problem". The answer will be given in the following months Numis-Notes!

This Months Mystery-

This month we look at a 1918(P) Lincoln cent that appears to have a very large die crack on the reverse. But, is it a die crack?

Answer for last month:

Is this a die clash?" "No", it is not. This is the answer; it is a lesser known form of die deterioration which transfers design outlines from one die to the other. Since there are many types of design transfer (clashed dies, brockages, etc.), it is preferable to call this type of design transfer "Progressive Indirect Design Transfer" or "PIDT". Other synonyms you're likely to encounter are "heavy design transfer", "internal metal displacement phenomenon (IMDP)", and "ghosting". Progressive indirect design transfer chiefly involves large, centrally-located design elements. It's most likely to occur in thinner denominations.

REMINDER!

Don't forget! Dues were due before May 1st for the current year! **If you have not paid yet, your name has been purged from the drawing bin and you are not eligible for "Let's Make A Deal", Educational Award, or the membership award!** See Donna to keep your membership active!

☪☪☪ Collectors :

For those of you who use Error-ref.com, MADdieclashes.com and Traildies.com, we are in the process of transferring these sites to more compatible servers. The company that we are now with seems to have issues with the amount of data that is presented on these sites stating that their servers are unable to handle that many pages.

So, we have found a new home and the transfers will start with Traildies.com, followed by the under construction site Cuds-on-coins.com. If you use these sites, do not be alarmed at the changes, the sites still have all the information available to you.

Our Annual Gold Raffle

Thanks to Randy Campbell for his professional opinion and keen eye assisting buyers and sellers with grading.

Our own "BJ" and Jeannie Neff displaying and verifying any errors or variety coins, and how they happened.

Overview of the show-many club members have tables, including our very own "Trader Nick"

Zach Lauer looking intently for that "perfect" Morgan Dollar to add to his exhibit at winter F.U.N.

Club History

My fellow club members. I am attempting to update the Central Florida Coin Club history. It is done through 1988 with next to nothing after that. I need the help of all club members. If you do not attend meetings on a regular basis (or not at all) please mail me ANY and ALL information you may have with reference the club. If it is something you would like to keep I will make a copy and return the original to you and will pay the postage both ways. If you have only a memory of an incident/happening please send that to me too and I will include it in the written club history. Something of this scope is not a one person job. I need help from all members.
-Bob Russell-

Annual Gold Raffle

The raffle tickets have been printed and are on hand for any club member who wants to sell some for the club. Every member is encouraged to take a pack of tickets and SELL-SELL-SELL ! This is one of the major fund raisers for YOUR club! Only \$1.00 each or 6 for \$5.00. They will be available at the club meetings. See Bob Russell.

Winter FUN Club Exhibits

FUN has implemented a new category of judged exhibits - Club Exhibits- Any coin club may enter an exhibit, showing off who they are, what their accomplishments are, etc. Basically a brief synopsis of the organization. We are looking for memorabilia to put in this display (it will be a locked display, and you will get your items returned!).

We are also looking for some volunteers to help "design" this display-You do not have to be artistic-just willing to assist! See Bob Russell for particulars!

Upcoming Presentations

NOTE: We are looking for speakers/presentations!
See BJ Neff to reserve your spot !

It is our goal to have one meeting per month, where a guest speaker (read-a member of the club) gives a short 20 minute presentation on a topic of their choosing-Numismatic related, of course.

We are always looking for volunteers to share their knowledge with the members-

The presentation doesn't need to be "show quality", just get up and tell us what you know!
